Prometheus Overview

Prometheus Suite Applications

Prometheus Suite Applications

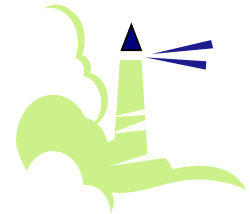

- **Engine**

- ❖ Beta Data's back office application that manages the raw data for bill processes

- **Lighthouse**

- ❖ A web-based application that gives the customer the ability to view their billing information and supply supplemental billing information for bill in production

- **Browser**

- ❖ Tool that allows the governmental client to view and analyze their bills from their desktop computer

- **Administrator**

- ❖ Allows the governmental client to customize their bills for their end users

GSA Analyst Experience

I have had the pleasure of working with Beta Data Billing Software since 2002 ...

I have to say that this is the best, easiest, and so far above any other billing media that I have used in 11 years as an analyst that I would recommend this software to everyone!

It is all in the click of a button!

Wonderful product!

Prometheus Engine

- **Description**

- ❖ **Beta Data's back office application that manages the raw data for bill processes**

- **Features**

- ❖ **The Billing engine that stores all of the data associated with Bill production including customer proprietary data, supplemental documents, CLINS, USOC's etc.**
